### REMARKS

This proposed amendment is responsive to the March 9, 2006 telephonic interview between Examiner Son Huynh and Applicant's attorney, Lester Wallace. Applicant's attorney has endeavored to amend the claims exactly as discussed in the March 9, 2006 telephonic interview. Due to the cancellation of what was Claim 22 in the prior proposed amendment, the following claims were renumbered so that there would not be blank new claim numbers. What were new Claims 28 and 29 in the prior proposed amendment are now renumbered to be new Claims 23 and 24. What were new Claims 23-26 in the previous proposed amendment (that depended from Claim 22 which is now canceled), have been renumbered to be new Claims 25-28 and have been reworded to make them depend from new Claim 23. What was new Claim 27 in the prior proposed amendment cannot be made to depend from Claim 23 due to the fact that Claim 23 requires the third storage device to be a "set-top box". This limitation is believed to be inconsistent with what was new Claim 27 in the prior proposed amendment. Consequently, Applicant has added a new Claim 29 with similar wording to what is now new Claim 27, except that new Claim 29 does not limit the "screen" to being a "television screen" (in one embodiment, the recited multimedia content can be consumed in the third building on a wireless device even though the multimedia content was received into the third building via the recited "third set-top box").
